

Job Description

Software Developer

The Job

This isn't your ordinary job, you're here to revolutionise Cloud distribution whilst working closely with the world's leading Cloud solution providers including Microsoft, Symantec, Acronis, and more.

This role requires that you live in the UK and have full right to work.

As part of your role as a software developer within the large software development team, you will be required to put a wide range of analytical and technical skills into primarily working on multiple different aspects of our Cloud-based billing and provisioning marketplace - CASCADE. This comprises of frontend websites created in React and MVC interacting with multiple backend internal and vendor consuming API's.

Responsibilities (but not limited to)

- You will be responsible as part of a team and individually, to manage and maintain the software developed required to connect, provision and consume product services in the UK as well as worldwide.
- Design, implement and maintain code to follow reliable and best coding practices whilst meeting the pace to support the business needs.
- Liaise with different teams within the business to provide support to onboard and integrate our vendors and associated products.
- You will also work closely with our CASCADE Operations team to improve our systems for use of our partners and customers satisfaction.

Skills & Experience

- .NET platform – including C#, ASP.NET, MVC, Web API, and Entity Framework
- Object oriented programming, including design patterns, SOLID etc.
- Web and JavaScript libraries (preferably React)
- Knowledge of how to design and consume RESTful APIs
- SQL Server and T-SQL
- Version control and CI/CD – preferably Git and Azure DevOps
- Experience with iterative development methodologies

- Operational/support/maintenance experience on an enterprise system

Required

- 1-2 Years' experience managing a large account portfolio
- Account Management background or similar
- Be tenacious, committed, and competitive
- Excellent Communication Skills (including listening)
- Negotiation
- Time Management
- Proficiency in Microsoft suite of applications
- Experience in Cloud Distribution (Vendor, Distributor or Re-seller)
- CRM systems (Dynamics, Salesforce)

intY endorses the principle of equality and will strive to ensure that everyone has a genuine and equal opportunity to participate to the full extent of their own ambitions and abilities, regardless of age, disability, gender reassignment, marital or civil partnership status, pregnancy or maternity, race, religion and belief, and sex or sexual orientation. Employees can be assured of an environment in which their rights, dignity and individual worth are respected, and in particular that they are able to enjoy their employment with intY.
