

11:11 Systems BaaS & DRaaS Solutions

Secure BaaS & DRaaS
with 11:11 Systems and Veeam

About 11:11 Systems

11:11 Systems are a managed infrastructure solutions provider that ensures businesses' network and infrastructure are always running, accessible, and protected. From Backup as a Service (BaaS) to Disaster Recovery as a Service (DRaaS), 11:11 Systems addresses most cloud, connectivity, and security challenges that modern-day businesses face.

11:11 Systems & Veeam

11:11 Systems are Veeam's largest and most experienced cloud service provider. With 11:11, DRaaS for Veeam and Cloud Backup for Veeam Cloud Connect, you're able to build upon customers' existing investment with Veeam to create an even stronger BaaS and DRaaS solution.

VEEAM

11:11 Cloud Backup for Veeam Cloud Connect

11:11 Cloud Backup for Veeam Cloud Connect protects your customers' critical data from all cybersecurity threats by integrating with Veeam's industry-leading Backup & Replication software.

Whether there is hardware failures, cybercrime, malicious deletions, or even accidental deletions, the solution provides a reliable safety net for any data loss events that may occur.

Simplified Pricing

**Full-Managed
DRaaS**

**DRaaS Deployment
Service**

Self-Service Testing

11:11 DRaaS for Veeam

11:11 Disaster Recovery as a Service for Veeam is an industry-leading combination providing security, replication, and failover capabilities.

Integrating your customers' on-premises Veeam environment with an extension to 11:11's cloud infrastructure, it offers simple, unified IT protection and recovery to all VMware-based applications.

It's also easy to deploy with security and encryption included, no networking configuration required and you're able to begin replicating in minutes.
